Web development professional with a background in Accounting – offering a unique perspective to software development. Demonstrated ability to learn quickly in a fast-paced environment. Utilizing some of the latest technologies to build stunning web applications.

TECHNICAL SKILLS

Languages: JavaScript, jQuery, NodeJS, HTML, CSS, Express, React

Applications: Github, Visual Studio, Bootstrap, Materialize, MySQL, MongoDB

PROJECTS

CUSTOMIZABLE RESIDENCE UPKEEP DATABASE | <https://github.com/caustinterry/CRUD-Project> | <https://crud-masters.herokuapp.com/>

- Users can create a set of tasks and assign users to each individual task. The tasks and users are stored in separate tables in the database.
- Primarily responsible for the initial Front-End design and API calls for Adding and Listing the users.
- Utilizing HTML, jQuery, MySQL, Sequelize, Node.js, Express.js, Bootstrap

WEATHER OR NOT TO DRINK | <https://github.com/caustinterry/Weather-or-not-to-drink> | <https://austinterry.dev/Weather-or-not-to-drink/>

- Users can use their location or input a city name to get the weather. When that's determined a set of drinks will be recommended based upon the current weather.
- Primarily responsible for the API calls for the Open Weather Maps and integrating it into the design.
- Utilizing HTML, CSS, jQuery, Ajax, Materialize.

BURGER TOWN | <https://github.com/caustinterry/Burger-Town> | <https://blooming-lowlands-41656.herokuapp.com/>

- The user can choose from a pre-populated database of a list of burgers on a menu.
- This app was designed and coded entirely by me.
- Utilizing HTML, CSS, jQuery, MySQL, Express, Express Handlebars.
